Development, construction and repairing for Bilstein und ZF Sachs dampers

In 1989 NTP was founded by Klaus Trettl a famous Hill climbing driver. With his knowledge and his passion, and the pursuit of high-quality products he started to distribute in Italy the best performance, tuning and Motorsport brands like Eibach, Bilstein, K&N, Remus and BBS. Step by step he became the market leader in this sector.

After his death, his son Jochen Trettl took over the company and continued to expand it. To what it is today; the largest distributor in Italy for the who's who of the most famous brands in the automotive accessories sector for Tuning and Motorsport products. He added brands like Eventuri, EBC, Powerflex and ZF Sachs.

In the Bilstein Technical Center (one of five worldwide), dampers for industrial systems are developed from scratch in the same way as for vintage cars or prototypes. In addition, racing cars around the world, be it circuits, rallies, or hill climbs, are highly successful with our chassis.

Even legends like Walter RÃ¶hrl are enthusiastic and customer os suspension solution by NTP.
